

Professional Summary

I am a self-taught and passionate full stack web developer with hands-on experience in building modern web applications using the MERN stack. Skilled in both front-end and back-end development, I have completed multiple real-world projects and enjoy solving problems through clean and efficient code. Quick learner, detail-oriented, and a team player committed to continuous growth and innovation.

Professional Experience

Full Stack Developer Trainee — MERN Stack
Brototype, Calicut

May 2024 – May 2025

- Completed intensive one-year training focused on full stack web development.
- Built multiple real-world projects using MongoDB, Express, React, and Node.js.
- Gained hands-on experience with REST APIs, JWT authentication, and database design.
- Practiced Agile development methodology and version control with Git.
- Successfully deployed full-stack applications to cloud platforms.

Education

Higher Secondary Education — Computer Science
K.P.E.S. HSS, Kayakkodi

2021 – 2023

- Completed Higher Secondary Education focusing on Computer Science fundamentals, programming principles, and system design.

Featured Projects

OLX Clone — React + Firebase

- Built a fully functional marketplace application with product listing and search features.
- Implemented secure user authentication and authorization using Firebase.
- Designed responsive UI for optimal user experience across devices.

Chat Application — MERN + Socket.io

- Developed real-time chat application with private and group messaging features.
