Profile Summary

I am a self-taught and passionate full stack web developer with hands-on experience in building modern web applications using the MERN stack. Skilled in both front-end and back-end development, I have completed multiple real-world projects and enjoy solving problems through clean and efficient code. Quick learner, detail-oriented, and a team player committed to continuous growth and innovation.

Technical Skills

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Redux, Tailwind CSS, Bootstrap, Responsive Design

Backend: Node.js, Express.js, RESTful APIs, JWT Authentication, Socket.io, TypeScript, Firebase

Tools & Others: MongoDB, Mongoose, Git, GitHub, Postman, VS Code, Linux (Basic), Cloud Deployment

Projects

OLX Clone

[Live](#) | [GitHub](#)

A fully functional marketplace application with product listing and search features.

- Built with React and Firebase.
- Implemented secure user authentication and authorization using Firebase.
- Designed responsive UI for optimal user experience across devices.

Chat Application

[GitHub](#)

A real-time chat application with private and group messaging features.

- Developed using MERN stack and Socket.io.
- Implemented WebSocket-based communication using Socket.io.
- Created user authentication system with JWT.

E-Commerce Website

[LinkedIn Post](#) | [GitHub](#)

A responsive e-commerce platform with product catalog.

- Designed and developed using MERN stack.
- Implemented shopping cart, checkout process, and payment integration.
- Created admin dashboard for product and order management.

Netflix Clone

[Live](#) | [GitHub](#)

A recreation of Netflix's UI and functionality using React and TMDB API.

- Built with React.js and TMDB API.
- Implemented dynamic movie carousels and responsive design.

Inker (Group Project)

[GitHub](#)

A content publishing platform developed collaboratively.

- Built using MERN stack and Redux.
- Designed and implemented post creation and editing interface.
- Built user profile system with customization options.

Experience

Full Stack Developer Trainee

May 2024 - May 2025

Brototype - Calicut

- Completed intensive one-year training focused on full stack web development.
- Built multiple real-world projects using MongoDB, Express, React, and Node.js.
- Gained hands-on experience with REST APIs, JWT authentication, and database design.
- Practiced Agile development methodology and version control with Git.
- Successfully deployed full-stack applications to cloud platforms.

Education

Higher Secondary Education (Computer Science)

2021 - 2023

K.P.E.S. HSS - Kayakkodi

- Completed Higher Secondary Education focusing on Computer Science fundamentals, programming principles, and system design.
